About me

Hi, my name is El-jareau and,

I am a motivated MBO 4 Front-End Development student seeking opportunities to apply creative and technical skills in a dynamic work environment. Eager to contribute to innovative web/app development projects and enhance user experiences.

School Projects

School and Program Vision Website

- Collaborated in the development of a comprehensive website during the first year to depict the future outlook of our school and program.
- Integrated a user-friendly interface using HTML5, CSS3, SASS, and JavaScript.
- Experienced with working with React, MERN, Node.js, Tailwind and Bootstrap.
- Engaged with stakeholders, including parents, to showcase the website's content and vision for the upcoming years.

Interactive Portfolio Website

- Developed a personal portfolio website showcasing front-end development projects.
- Integrated interactive elements using React.
